

Mobil Refinery Receives Safety Award for 1960

The National Safety Council's top award in its category has been awarded to the Southern California manufacturing department of the Mobil Oil Co., it was announced here this week by A. E. Thompson, manager of the Torrance refinery.

The award went to Mobil Oil for placing first in the Group "A" safety contest in the petroleum industry in 1960, he said. Competing for the award were all petroleum manufacturing operations in companies which operated more than three million man-hours in the preceding years, according to National Safety Council rules.

MOBIL TOOK the top award by compiling an accident frequency per million man-hours worked which was lower than competing companies. Mobil's rate was 0.38 per million compared to the industry average of 2.79 per million, it was reported.

H. M. Slover, pipefitter at the local refinery, received the award on behalf of the refinery employees from Manager Thompson.

Slover was one of last year's chairmen of the Workmen's Safety Committee.

"I THINK safe work procedures are a very personal thing," Thompson said in making the award.

"As a company, we can provide protective clothing, safety goggles, and types of safety devices; and we can insist that our apparatus meet the highest safety standards," he said.

"But all these precautions are to no avail if the personnel who are to use them ignore their existence. It is only through the individual efforts of each employee that we can perform our work in a safe and efficient manner," he added.

Medical Assn. Official Urges Polio Vaccine

Immediate inoculation against polio, whether as the first of a series of injections or as a booster, was advised today by the California Medical Association.

A note of urgency was sounded by Dr. James MacLagan, chairman of the association's Commission on Community Health Services when he stressed the importance of anticipating the summer polio "season."

"Steps should be taken immediately," he said, "and the first thing to do is to call your doctor or your local health department."

He pointed out that the newer oral vaccine is not yet available.

"The highly effective Salk vaccine is in plentiful supply, however," he said. "It is necessary, though, that everyone have at least three injections, or a booster shot, prior to the summer months."

Pacific Bowl Backers Plan Meeting Here

The Pacific Bowl Assn. announced today its forthcoming annual meeting to be held Sunday at the Torrance Council Chambers, 3031 Torrance Blvd., at 3 p.m.

The Pacific Bowl Assn. is a group of nearly a thousand civic and cultural minded citizens who are endeavoring to procure a cultural center for this area.

The important agenda will include progress reports, discussion of future plans, election of officers, followed by an open suggestion period to change the name of the organization, to state more comprehensively the total objects of this organization.

Immediately after the business meeting will be a musical program which will include a recording of the recent production of the opera "Aida" by the Civic Symphony of South Bay and Torrance.

The meeting is open to the public.
